2019 CATALOGUE

Origins

The story of Royal Selangor goes back to 1885 when a young pewtersmith named Yong Koon sailed from the port of Shantou to Kuala Lumpur, a town then located in the tin rich state of Selangor. The discovery of tin in Malaya had lured him and thousands of other Chinese to the fledgling tin mining town, where he joined his brothers who had established themselves as tinsmiths.

In early years, Yong Koon made pewter incense burners, joss stick holders and candlestands for the altars of wealthy tin miners and Chinese temples. When demand for traditional ceremonial pewterware declined, Yong Koon and his sons started making European style products for the British and other expatriates under the brand of Selangor Pewter. This was an important turning point for the business and laid the foundation for an export market.

In 1979, the company received a royal warrant from the Sultan of Selangor. To reflect the royal endorsement and diverse nature of the company, Selangor Pewter changed its name to Royal Selangor in 1992.

The tradition of craftsmanship continues through its workforce of 250 craftspeople based at its factory in Setapak, Kuala Lumpur.

Pewter

Royal Selangor pewter consists of as much as 97% high quality tin, with a small proportion of copper and antimony added to strengthen the alloy. All Royal Selangor pewter is lead-free and food safe.

Pewter's unique characteristics, its low melting point and relative softness, make it ideal for craftsmen and designers to work with. Loved for its versatility and feel, it can be fashioned in a variety of finishes – a traditional soft satin lustre, a dazzling brilliance that rivals silver or a subdued 'antique' finish.

Royal Selangor produces high quality cast pewter, which is heavier and stronger than spun pewter. When struck gently, it produces a resonant sound.

Craftsmanship

Time-honoured techniques of creating handcrafted objects.

With over 250 skilled craftspeople and a 40-strong in-house design team, we have expanded the uses of pewter, exploring its many possibilities from children's gifts, wine accoutrements to personal accessories.

Casting

The design of the piece is reproduced in pewter.

Filing

Excess pewter and parting lines are removed to reveal fine detail.

Scotching

The surface undergoes scotching to achieve a smooth sheen.

Hammering

Flat pewter sheets acquire a rich dimpled texture using this traditional method.

Machine Polishing

The piece undergoes meticulous hand-guided machine polishing.

Buffing

A bright finish is achieved when the piece goes through hand-guided machine buffing.

Soldering

Requisite parts are soldered together, a process that requires speed and precision.

Hand Polishing

Fine corners and edges are carefully hand polished, leaving a perfect finish.

Engraving

Personalise the piece with a special hand engraved message.

CHATEAU

In repurposing European ornament from the late Middle Ages to the cusp of Neoclassicism, Chateau's bold use of scale, in an array of essentials for entertaining, is a nod to the Hollywood Regency design style of the movie capital's golden age; at once comfortably traditional, yet stylishly modern, and always glamorous.

BUNNIES' DAY OUT

For this gregarious bunch of bunnies, the adage 'life looks better through rose-tinted glasses' couldn't be more apt. In their nostalgic mid-century world, every day out is a day filled with wonder, enjoyment and possibilities. What adventures await them on their next jaunt?

TEDDY BEARS' PICNIC

Since the turn of the 20th century, 'The Teddy Bears' Picnic' has been one of the world's most beloved children's songs. Just as enduring is the appeal of our Teddy Bears' Picnic collection of christening gifts. Spinning a tale of teddy bears gathering for a day of fun, food and games, hidden away in the woods, the tune's lyrics come to life in wonderfully sculpted keepsakes.

From the treasure troves of the Victoria and Albert Museum, Royal Selangor has recreated their timeless pieces in antique finish. Each piece exudes the rich but subdued patina of pewter resembling the great creations of the past.

A project with the British Museum, this collaboration draws on the public institution's vast collection of over 8 million artefacts, documenting the story of human culture from its earliest days to the present. Each piece is marked with the British Museum logotype.

LIBERTY

Liberty looks to the unpretentious simplicity of colonial American pewter in an interpretation for the contemporary table. Each piece is hallmarked with Royal Selangor's maker's mark, Sn920 for tin content, and the tiger's head for country of manufacture.

Story of the Melon Teapot

Royal Selangor's heritage Melon collection draws inspiration from a storied melon teapot, a late 19th century piece by Royal Selangor founder Yong Koon.

How this melon pot made its way full circle back into the hands of the Yong family is a saga in itself. It saved the life of a Malayan villager, known only as Ah Ham who was scrambling for rice in the abandon godowns during World War II. When he saw the shiny teapot on the ground and bent down to pick it up, shrapnel whizzed past his head. A shaking Ah Ham ran out clutching the teapot, convinced the vessel must have mystical powers that saved his life.

For decades afterwards, Ah Ham entertained friends with his wartime story as he poured them tea from the melon teapot. In the early 1970s, Ah Ham asked a friend to take it to the pewter factory for polishing, where someone immediately recognised the Ngeok Foh touchmark on the bottom and persuaded Ah Ham to part with it for a sum of money. The melon teapot is now in the company's archival collection. It has spawned a line of reproduction melon shaped teapots, tea caddies and other melon-shaped products.
